

TECHNOLOGY STUDENT ASSOCIATION WORK LOG				
Date	Task	Time involved	Team member responsible (student initials)	Comments
01/02 1.	Customized home page of website	2hr	X.L	Gathered images that were eye-catching, and worked on the header using mainly CSS and HTML.
01/03 2.	Customized sustainability and farm to table process page	2hr	X.L	Worked on making informational "cards" that explained the restaurants sustainability process, and how customers can trust in the restaurant's food.
01/04 3.	Created the sneak peek and about us page for the restaurant.	3hr	X.L	The CSS styling wasn't that much of a problem since I created my own graphics such as the background.
01/05 4.	Finalized the landing page by adding a footer, booking page, and schedule of the restaurant	5hr	X.L	
01/06-01/10 5.	Worked on making a menu	8hr	X.L	I went through a lot of errors and trials, and it was pretty frustrating.
1/10 6.	Provisioned web server, also set up code-server to push and edit code directly, along with backups	1hr	S.R	Prior experience was very helpful in speed here
